# Your Guide to Kayaking & Canoeing on the Kayaderosseras Creek

*"the land of the beautiful lake of the winding river"*

The Kayaderosseras Creek flows through Ballston Spa and drains into Saratoga Lake, taking you through the historic Saratoga region. Some portaging over logjams will be necessary during low water. Paddling in either direction works, although during spring run off, paddling upstream requires some skill. Be aware of your abilities and those of the persons with whom you are paddling. Shuttles can also be set up at the various access points for paddling one direction.
